

Qn. Booklet No:

24029

Roll Number:

--	--	--	--	--	--	--	--

## INSTRUCTIONS TO CANDIDATES

1. Fill in the OMR sheet carefully as per the instructions given on the back of the OMR Sheet / Admit Card. OMR sheet not correctly filled in will not be valued.
2. Write your Roll Number (all eight digits) and Version as A on the Question Booklet and on the left hand side of the OMR sheet (basic data part).
3. The examination consists of 100 Objective type multiple choice questions, which are to be answered in 90 minutes.
4. After opening the Question Booklet ensure that there are 100 Questions and that the printing of all the questions are legible. If there are any missing or illegibly printed questions, the matter may be reported to the Invigilator immediately.
5. There are 4 options (A, B, C & D) for each objective type question. Mark the most appropriate answer to each question by blackening fully the corresponding bubble in the OMR sheet with a black/blue ink ball point pen. **For every correct answer 1 mark will be awarded and for every incorrect answer 1/4 mark will be deducted from the total marks scored. No deduction of mark will be made for unanswered questions.** Marking of more than one bubble against a question number in the OMR sheet shall be considered as an incorrect answer. Erasing, overwriting, partial marking, etc. shall also be treated as incorrect answer.
6. Rough work and calculations can be made in the blank pages attached to the question booklet. Watch, Calculator, Mobile phone, Electronic instruments etc. shall not be allowed in the examination hall.
7. The OMR Sheet and the Hall Ticket should be returned to the Invigilator. The Counterfoil of the Hall Ticket and Question Booklet and candidates copy of the OMR answer sheet can be retained by the candidate after the examination.
8. Answer keys will be published in the website [www.lbscentre.kerala.gov.in](http://www.lbscentre.kerala.gov.in) after the examination. Complaints, if any, from the candidates regarding the questions, responses / probable answer may be sent to the Email id [ddcc.lbs@kerala.gov.in](mailto:ddcc.lbs@kerala.gov.in) before 5.00 p.m. within three calendar days from the date of publication of the answer keys. Complaints not substantiated with supporting documents will not be considered. However the decision of the experts regarding such complaints on the answer keys shall be final.
9. The Answer sheet of candidates who indulge in malpractice in any form shall not be valued.
10. The candidates will be allowed to leave the hall only after the completion of the examination time. No candidate shall leave the hall without handing over both Basic Data Part and Answer Part to the Invigilator.

1. The most abundant gas in the earth's atmosphere:  
A) Oxygen      B) Nitrogen      C) Hydrogen      D) Argon
2. The element present on lead pencils:  
A) Carbon      B) Lead      C) Boron      D) Phosphorous
3. The institution which is **not** exempted from providing information according to the Right to Information Act, 2005:  
A) Intelligence Bureau (IB)  
B) Central Bureau of Investigation (CBI)  
C) Indian Space Research Organization (ISRO)  
D) Narcotics Control Bureau (NCB)

A) Justice Chandrachud      B) Justice O Chinnappa Reddy  
C) Justice Das      D) Justice Raghunandan Swarup Pathak

Questions 51- 60. Read the passage and choose the most appropriate answer from the options provided to answer the questions/fill in the blanks.

Every day, hundreds of people around the world have to leave their homes and look for a new, safe place to live. About half of these people are children. World Refugee Day, on 20 June every year, is a day to support refugees, learn about and understand their problems, and celebrate their strength and courage.

A refugee is someone who has to leave their home country because they aren't safe there. This may be because of war and violence. It could also be that they are treated unfairly and cruelly because of their race, religion or political beliefs. Some people have to leave their homes because of climate change and natural disasters like droughts or floods.

When refugees leave their homes, they often have to go on very long and dangerous journeys. Some walk for many days, others travel by lorry, car or boat, and many don't have enough food or water for the journey. Sadly, a lot of refugees don't reach their final destination.

When refugees arrive in a safe country, they can ask for permission to stay in the new country. People who are waiting to get permission to stay are called 'asylum seekers'. A lot of people have to live in refugee camps while they are waiting. A camp is often like a giant city of tents, with thousands of people living in it. People can get food, clothes and medical help, and some camps even have schools. But many camps are too full, and conditions for refugees can be very bad.

The United Nations started World Refugee Day in 2001. Lots of events take place all around the world to celebrate this special day. Some cities light up their landmarks in blue to show their support for refugees. Others have concerts, art exhibitions or food festivals. In many places, there are charity walks, runs, swims and bike rides to raise money for refugees. Walking or running a long way helps us understand how far some refugees have to travel.

Many children learn about the refugee crisis at school and do special projects, for example finding out about someone famous who is or was a refugee. There are lots of different ways to get involved in World Refugee Day! What will you do?

51. The word 'refuge' refers to a ---- of safety.  
A) time      B) place      C) fear      D) lack
52. A refugee is a person who ---- refuge.  
A) seeks      B) speaks      C) stakes      D) stays

6. The youngest, Arulmozhivarnan, surpassed the others.  
7. But the one who loved him most was his older sister Kundavi, who felt wholly responsible for him.  
A) 6, 5, 1, 3, 7, 2, 4 B) 4, 6, 1, 3, 7, 2, 5  
C) 1, 4, 3, 2, 7, 5, 6 D) 4, 5, 1, 6, 7, 3, 2
76. The value of the square root of  $(1.1^2 + 0.1^2 + 0.5^2 + 0.7^2)$  is:  
A) 1.96 B) 1.2 C) 1.4 D) 1.69
77. Which of the following numbers has its square root is thrice its cube root?  
A) 216 B) 484 C) 64 D) 729
78. The value of  $\frac{\sqrt{75}-\sqrt{3}}{\sqrt{75}+\sqrt{3}}$  is:  
A)  $\frac{3}{4}$  B)  $\frac{2}{3}$  C)  $\frac{4}{5}$  D)  $\frac{5}{8}$
79. What percentage of  $\frac{5}{7}$  is  $\frac{7}{5}$  ?  
A) 120% B) 125% C) 196% D) 149%

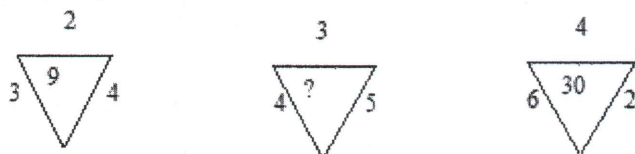

80. If 'm' is a positive integer greater than 1, then the highest divisor of  $m^3 - m$  always is:  
 A) 6                      B) 12                      C) 4                      D) 8
81. The arithmetic mean of 10 consecutive integers is 5.5. Then the sum of squares of the integers is:  
 A) 55.5                      B) 385                      C) 555                      D) 38.5
82. An online sales counter, on the first day of a week sold items for Rs. 20000, on the second day 20% more than the collection of the first day and on the third day 80% of the total collection of the first two days. What is the average collection per day during these three days?  
 A) Rs. 26000                      B) Rs. 25800                      C) Rs. 28200                      D) Rs. 26400
83. A person bought an article and sold it at a gain of 10%. If he had bought it at 10% less and sold it for Rs. 20 less he would have made a profit of 20%. Then the cost price of the article is:  
 A) Rs.1000                      B) Rs.500                      C) Rs.900                      D) Rs. 1100
84. The present population of a city is 40000. If the number of males increases by 5% and the number of females increases by 6%, the population becomes 42210 after a year. How many males are there at present?  
 A) 21000                      B) 19500                      C) 19000                      D) 20500
85. Which of the following numbers is the smallest number which is completely divisible by all even numbers from 1 to 20?  
 A) 5040                      B) 2520                      C) 1260                      D) 720
86. Two liters of a mixture contains kerosene and petrol in the ratio 2:3. To prepare a new mixture containing kerosene and petrol in the ratio 3:2, how much more kerosene should be added?  
 A) 1.2 litres                      B) 0.6 litre                      C) 0.8 litre                      D) 1 litre
87. A boat travels upstream at a speed of 40 km/hr. for an hour and returns to the jetty. If the average speed of the entire trip has been 60km/hr, what is the speed of the stream?  
 A) 30                      B) 40                      C) 20                      D) 25
88. Two pipes A and B can fill a tank in 4 and 6 hours respectively. If they are opened for one hour each alternatively starting with pipe A, when will the tank be full?  
 A)  $3\frac{3}{4}$  hrs                      B)  $3\frac{1}{2}$  hrs                      C)  $4\frac{3}{4}$  hrs                      D)  $4\frac{1}{4}$  hrs
89. A man travelled from A to B at the rate of 30 km per hour. Had he travelled at the rate of 20 km per hour he would have taken 3 more hours to reach the destination. What is the distance between A and B?  
 A) 210 km                      B) 220 km                      C) 240 km                      D) 180 km
90. If 1 man or 2 women or 5 children can do a job in 10days In how many days can 1 man,1 woman and 2 children do the same job?  
 A)  $5\frac{3}{4}$  days                      B)  $5\frac{1}{4}$  days                      C)  $4\frac{3}{4}$  days                      D)  $4\frac{1}{4}$  days

91. Complete the series : 0, 12, 48, \_\_, 240, 420  
 A) 120                      B) 96                      C) 192                      D) 156
92. Complete the series : 26AZ1, 24CX9, \_\_, 20GT49  
 A) 22DV25                      B) 22EV25                      C) 22EV16                      D) 22DV16
93. Some letters of the series “a\_a\_ca\_bc\_bb\_c” are missing which are given in that order as one of the alternatives given below. Choose the correct alternative.  
 A) cbbba                      B) cbbaa                      C) cbbab                      D) abbba
94. The positions of how many letters in the word “RELATION: will remain unchanged when the letters within the word are arranged alphabetically?  
 A) 0                      B) 1                      C) 2                      D) 3

Read the following and answer questions 95 and 96.

Five children A, B, C, D and E play a game of cards. Each has 10 cards. A borrows 6 cards from D and gives away 3 to B who in his turn gives 4 to C, while C gives 2 to E and E gives 3 cards to A.

95. How many cards does A have?  
 A) 12                      B) 13                      C) 19                      D) 16
96. How many cards does E have?  
 A) 12                      B) 9                      C) 10                      D) 16
97. Five students took part in a race. A finished before B but behind C. D finished before E but behind B. Who won the race?  
 A) C                      B) D                      C) B                      D) A
98. Find the missing number

- A) 13                      B) 11                      C) 24                      D) 15
